#### Market Review and Future Prospects

Although innumerable challenges have encompassed the world economic front since inception of pandemic, Pakistan has considerably rebounded from previous state of economic downturn and is headway towards progression. The relentless initiatives taken by government deserve a due extol; Federal and Provincial Governments have created just enough impetus to revive the economy at the right times whilst fighting off the virulent effects of the pandemic.

Manufacturing sector has registered a remarkable growth backed by stimulating policies of government, notably; relief given to export oriented sector in the form of gas and electricity subsidy, timely processing of sales tax and payments of DLTL. Further, industrial support packages for construction sector and reduction in electricity rates for winter months really lubed up the growth.

On economic front, macro indicators will remain in the constant radar of every economist in medium term, with numbers like current account deficit, rupee devaluation and high inflation rate, businessmen are expecting increase in policy rate which will result in slow down of economy and repetition of 2018 crisis. However, the government is confident that the economy is right on track, all the steps taken will come to fruition in medium to long term.

#### Subsidiary Companies and Consolidated Financial Statements

The Company's portfolio of subsidiary companies includes Nishat Chunian Power Limited, Nishat Chunian USA Inc. Therefore, the Company has annexed consolidated condensed interim financial information in addition to its separate condensed interim financial information, in accordance with the requirements of International Financial Reporting Standards and applicable provisions of the Company Act, 2017.

#### Acknowledgement

The Directors wish to express their appreciation to the dedicated employees who continue to play a pivotal role in the operations of company.

#### 1. THE COMPANY AND ITS OPERATIONS

Nishat (Chunian) Limited ("the Company") is a public limited Company incorporated in Pakistan under the repealed Companies Ordinance, 1984 (Now Companies Act, 2017) and listed on Pakistan Stock Exchange Limited. Its registered office is situated at 31-Q, Gulberg II, Lahore. The Company is engaged in the business of spinning, weaving, dyeing, printing, stitching, processing, doubling, sizing, buying, selling and otherwise dealing in yarn, fabric and made-ups made from raw cotton, synthetic fiber and cloth, and to generate, accumulate, distribute, supply and sell electricity and steam.

#### 2. BASIS OF PREPARATION

These condensed unconsolidated interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IAS) as notified under the Companies Act, 2017; and Provisions of and directives issued under the Companies Act, 2017. Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed. This unconsolidated condensed interim financial information should be read in conjunction with the preceding audited annual published financial statements of the Company for the year ended 30 June 2021.

#### 3. ACCOUNTING POLICIES

The accounting policies and methods of computations adopted for the preparation of this unconsolidated condensed interim financial information are the same as applied in the preparation of the preceding audited annual published financial statements of the Company for the year ended 30 June 2021.

#### 4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of this unconsolidated condensed interim financial information in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of this unconsolidated condensed interim financial information, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Company for the year ended 30 June 2021.

Safes Exômmal - Export - Local - Export rebrañ & outy drawhack - Others

#### FOR QUARTER ENDED SEPTEMBER 30, 2021

#### 17. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

#### (i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in this unconsolidated condensed interim financial information. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

Recurring fair value measurements At 30 September 2021	Level 1	Level 2	Level 3	Total
		Rup	ees	
Financial liabilities				
Derivative financial liabilities	-	203,981,925	-	203,981,925
Total financial liabilities	-	203,981,925	-	203,981,925
Recurring fair value measurements	Level 1	Level 2	Level 3	Total
At 30 June 2021	201011	201012	2010.0	rotar
		Rup	ees	
Financial assets				
Derivative financial assets	-	56,576,881	-	56,576,881
Total financial assets	-	56,576,881	-	56,576,881
Financial liabilities				
Derivative financial liabilities	-	3,884,821	-	3,884,821
Total financial liabilities	-	3,884,821	-	3,884,821

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further, there was no transfer in and out of level 3 measurements.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

#### FOR QUARTER ENDED SEPTEMBER 30, 2021

#### (ii) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include the use of quoted market prices or dealer quotes for similar instruments.

#### 18. TRANSACTIONS WITH RELATED PARTIES

The related parties comprise subsidiary companies, associated undertakings, other related companies, key management personnel and post employment benefit plan. The Company in the normal course of business carried out transactions with various related parties.
